SAPC-3727  
Copy 6 of 6

6 February 1956

Joe -

Attached is original and two copies of Amendment No. 3 to EQ-1806. If it reflects accurately the items required and estimated prices thereof, and is satisfactory in other respects, will you please have it executed by your company and returned to me. After execution thereof by the Contracting Officer a completely executed copy will be returned to you for your file.

We are planning to definitize all your outstanding Letter Contracts by the end of March. This will, of course, require more definitive statements from you in the near future as to anticipated rates of effort and basic prices, especially on PO-660, EN-95 and EP-1054.

Attachment: Amendment No. 3 *where*
